- **Extremely lightweight – for all day comfort**
- **Single cord entry – no tangled cords, even on the duo version**

GN Profile 3-in-1

GN Profile Flex Duo

Personal comfort is important in the way you express yourself. As is excellent sound quality, giving you confidence when communicating and enhancing the enthusiasm of your message. The GN Profile headset gives you the feeling of a face-to-face dialogue, eliminating the barriers of a normal telephone conversation.

Every person is different and comfort is an individual feeling. That's why the extremely lightweight GN Profile lets you choose the wearing style. Individuals can choose between a slim flexible earhook, an earloop or the comfortable fitting headband to select a perfect fit. Whatever style you choose, the GN Profile's unique 3-in-1 solution ensures all day comfort.

Individuality doesn't just stop with wearing styles. A choice of fixed and flexible boom arms provides you with optimal microphone positioning. In addition, microphone options include standard, noise cancelling (NC) and ultra noise cancelling (UNC) allowing you to cope with even the noisiest environments. A duo version which allows you to maximise your concentration by providing sound in both ears, is also available.
