

6th October 2005

Alecia,

Thank you very much for your assistance in selecting, supplying and installing our new NEC phone system. What began as a confusing project for me, was made very simple after my phone call to you. You explained all the features and jargon in plain english.

The installation was completed with minimal fuss and down-time, something very important to us, as any business.

I would not hesitate to recommend TAA to anyone with any telephone system concerns.

Kind Regards,

Antony Vlahov
